

Laxman Adhikari

Sr. Full Stack Developer (Laravel/Vue.js) · Kathmandu, Nepal

adhikarilaxman001@gmail.com · linkedin.com/in/laxu-adhikari · github.com/prolaxu

Professional Summary

Senior Full-Stack Developer with **5+ years of experience** architecting and building scalable web applications serving **1M+ users**. Expert in Laravel, Vue.js, and microservices architecture with a proven track record of optimizing system performance by **50%+**, reducing operational costs through automation, and leading cross-functional teams. Passionate about clean code, system reliability, and delivering measurable business impact.

Technical Skills

Category	Technologies
Languages	PHP, JavaScript, TypeScript, Node.js, Python, HTML/CSS
Backend	Laravel, Express.js, RESTful APIs, Microservices, OAuth, WebSockets, Socket.IO
Frontend	Vue.js, Nuxt, Tailwind CSS, Alpine.js, Inertia.js
Databases	MySQL, MongoDB, SQL, Redis
DevOps & Cloud	Linux, Docker, CI/CD Pipelines, Nginx, Git
Media & AI	FFmpeg (HLS streaming), AI/LLM integration, OMR processing
Tools	Git, Jira, Postman, Figma, Linux Server Administration

Career History

Sociair — Sr. Full-Stack Developer (Laravel/Vue.js)

March 2026 – Present · Kathmandu, Nepal · On-site

- Architecting and delivering full-stack features using Laravel and Vue.js, driving technical direction and code quality across the engineering team.
- Leading architectural decisions, code reviews, and mentoring developers on best practices and scalable design patterns.

Ambition Guru — Laravel/Vue.js Developer

January 2023 – March 2026 · 3 yrs 3 mos · Kathmandu, Nepal

- Engineered scalable backend systems supporting **1M+ users**, including a QR-based event entry system that reduced check-in time by **70%**.
- Designed a **multi-tenant architecture** for 100+ organizations, cutting resource overhead by **50%**.
- Led migration from monolithic to **microservices architecture**, boosting overall system performance by **50%** and enabling independent deployments.
- Improved accessibility compliance by **90%** (WCAG standards), making the platform usable for visually impaired users.

- Integrated **AI-powered automation** (LLM, OMR) processing **10,000+ messages and sheets daily**, reducing manual effort by **70%**.
- Built and maintained an **e-commerce platform** processing **1,000+ monthly transactions** with real-time inventory and payment integration.
- Managed **100+ Linux servers** with streamlined CI/CD pipelines, achieving **99.9% uptime**.
- Optimized media processing pipeline with **HLS streaming**, reducing transcoding time by **60%** and cutting CDN costs by **40%**.

Digital Pravidhi — Laravel/Vue.js Developer

August 2020 – December 2022 · 2 yrs 5 mos · Kathmandu, Nepal · On-site

- Started professional career with Core PHP and Vue.js, quickly advancing to Laravel and full-stack delivery on production client projects.
- Refactored legacy codebases, reducing technical debt and improving maintainability across multiple client applications.
- Delivered **3 concurrent projects** on schedule by implementing agile workflows and clear communication with stakeholders.

Key Achievements

- **Performance:** Scaled backend to support **200K+ concurrent active users** while maintaining sub-200ms response times.
- **Efficiency:** Reduced manual operations by **70%** through automation in large-scale systems, saving 40+ engineering hours weekly.
- **Delivery:** Successfully managed and delivered **3 simultaneous projects**, increasing team delivery velocity by **15%**.
- **Cost Savings:** Optimized media infrastructure, reducing CDN and storage costs by **40%** through HLS streaming and caching strategies.

Education

Diploma in Computer Engineering — Kathmandu Institute of Technology, Kathmandu, Nepal

January 2020 – February 2024
